

FIIC governed market brief

Generated at | 2026-10-23T20:26:35+00:00

Filters | Species: all; District: all

Index base period | 2026-03

Revision | 21dd22139f5cb1ba

Methodology | Approved observations are grouped by exact product, grade, unit and district. Prices are sample-weighted with each observation capped at 1,000 samples; where a bucket has at least three observations, values below one-third or above three times its median are excluded. Base-period sample weights form a fixed-weight index. Coverage and sparse-series warnings are reported for every period; selecting another available base period rebases the index to 100. Revisions change the displayed revision identifier.

Caveat | Indicative approved observations only; not a quotation, forecast or guaranteed transaction price.

PRICE INDEX

Period | Index (base=100) | Coverage % | Series | Weighted samples | Excluded outliers | Quality

2026-03 | 100 | 100 | 1 | 1 | 0 | Sparse / interpret cautiously

2026-04 | Unavailable | 0 | 0 | 0 | 0 | Sparse / interpret cautiously

2026-05 | Unavailable | 0 | 0 | 0 | 0 | Sparse / interpret cautiously

2026-06 | 104.9 | 100 | 1 | 1 | 0 | Sparse / interpret cautiously

2026-07 | Unavailable | 0 | 0 | 0 | 0 | Sparse / interpret cautiously

2026-08 | Unavailable | 0 | 0 | 0 | 0 | Sparse / interpret cautiously

APPROVED MONTHLY SERIES

Period | Species | Product | Grade | District | Average UGX | Unit | Samples | Freshness

2026-08 | Eucalyptus | Utility pole | B | Kiboga | 42000 | pcs | 1 | aging

2026-08 | Pine | Sawlog | A | Kabarole | 211000 | m3 | 1 | aging

2026-07 | Pine | Sawlog | A | Kiboga | 203000 | m3 | 1 | stale

2026-06 | Pine | Sawlog | A | Mubende | 191000 | m3 | 1 | stale

2026-05 | Pine | Sawlog | A | Kabarole | 194000 | m3 | 1 | stale

2026-04 | Pine | Sawlog | A | Kiboga | 188000 | m3 | 1 | stale

2026-03 | Pine | Sawlog | A | Mubende | 182000 | m3 | 1 | stale
